

— THE NEW OFF-WHITE —

HEATSTRIP[®] INTENSE

HEATSTRIP INTENSE INFRA-RED ELECTRIC HEATERS
NEW “off-white” colour to easily blend with a white ceiling. High quality construction with a hexagonal grille and instantaneous carbon element. Ideal for under covered protected and semi exposed outdoor locations.

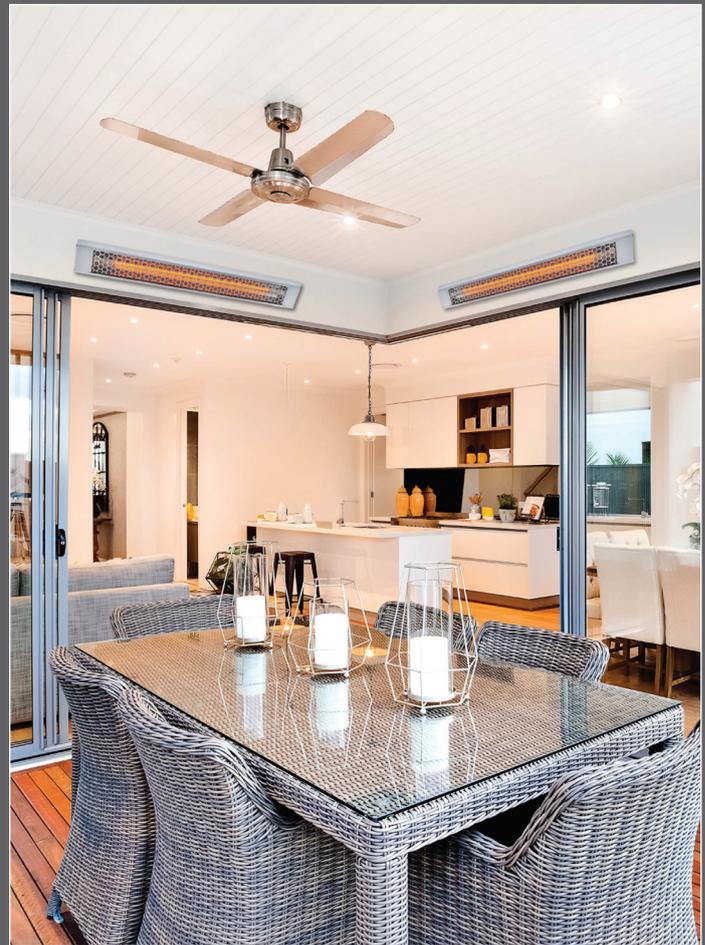

HEATSTRIP® Intense Infra-red Heater

Models THY2200W and THY3200W

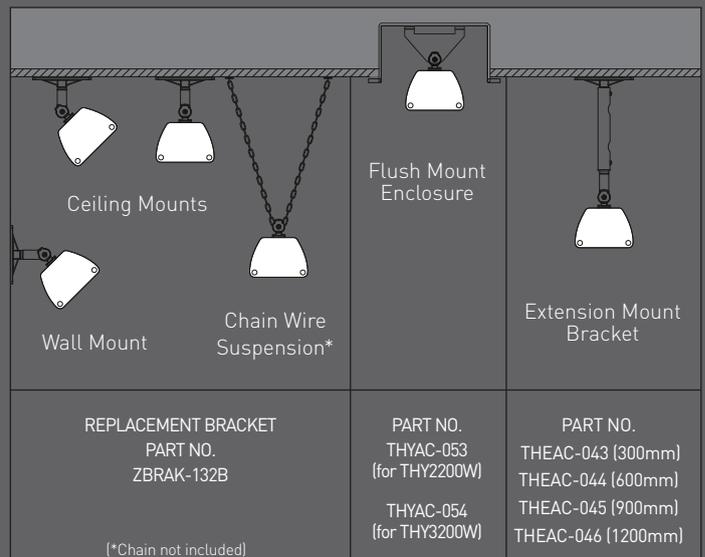

The new HEATSTRIP Intense Wall/Ceiling mounted electric infra-red heaters are a modern and attractive outdoor heating solution. The high temperature output of the HEATSTRIP Intense is perfect for exposed outdoor sites, high ceilings and hard to heat indoor and outdoor applications. With the new Off-white models this heater can blend into the white ceiling of your outdoor entertainment area.

FEATURES

- Easy DIY installation for 2200W unit, 3200W heater must be installed by a licensed electrician
- Carbon filament infra-red heating element offers high performance instant heat
- Ideal for undercover protected and semi-exposed outdoor situations. Also suitable for indoor use.
- 2 year residential and 1 year commercial warranty

Optional Mounting Accessories

MATERIALS OF CONSTRUCTION:

Heater: Anodised alloy casing and end caps with powder coated hexagon grille with IPX5 protection from water ingress from all directions.
